

Music

Students in Grade 3 explore the wide world of music! Through folk, square and traditional ethnic dances, and by singing rounds and partner songs, your child will understand that musical beats can be grouped in different ways and that two or more melodies can exist in one song. Your child will move their body to show what music looks like to them, listen to different kinds of musical instruments and recognize that sounds are made in different ways.

Physical Education

Your child will participate in dance, games, gymnastics, individual physical activities and activities outside of school. Through active and safe participation, they will understand what an active lifestyle involves and how their physical and emotional health will benefit from physical activity. Your child will also discover how positive interactions, through fair play, leadership and teamwork, make physical activity more fun and productive.

Social Studies

Your Grade 3 child will study life in other parts of the world and discover shared ground among all people. By examining various communities, they will discover common needs and how people's quality of life varies around the world. Your child will explore the concept of a global community.

Art

Grade 3 Art focuses on developing more realistic treatments, refining forms and looking carefully at the qualities of objects. Your child will explore different ways to draw and paint and to do printmaking, sculpture, fabric arts, photography and computer graphics. They will begin to experiment with mixing media. Your child will also express their feelings and ideas through their creations, and work on improving art pieces through critique.
