## INCLUSIVE EDUCATION POLICY

Inclusion is a way of thinking and acting that demonstrates universal acceptance of, and belonging for, all children and students. It is founded on the belief that all students can learn and reach their full potential given opportunity, effective teaching, and appropriate resources. An inclusive education system supports every student to be included in their greater school community. The following 6 principles are key to achieving CAPCL's vision for an inclusive education system. These principles can guide and inform value-based and learner-centred decisions related to policies, practices and actions at every level of our education system.

- **Anticipate, value and support diversity and learner differences** – Welcoming, caring, respectful and safe learning environments create a sense of belonging for all learners and their families.
- **High expectations for all learners** – Creating a culture of high expectations begins with an accessible curriculum and meaningful and relevant learning experiences. Educators and families act on the idea that, with the right instructional supports, every learner can be successful.
- **Understand learners' strengths and needs** – Meaningful data is gathered and shared at all levels of the system to understand and respond to the strengths and needs of individual learners.
- **Remove barriers within learning environments** – All education partners work together to remove barriers within the learning environment so that all learners are successful and can participate in the school community.
- **Build capacity** – All stakeholders develop, strengthen and renew their understanding, skills and abilities to create flexible and responsive learning environments.
- **Collaborate for success** – All stakeholders are committed to collaboration to support the success of all learners.
