

Art

Grade 3 Art focuses on developing more realistic treatments, refining forms and looking carefully at the qualities of objects. Your child will explore different ways to draw and paint and to do printmaking, sculpture, fabric arts, photography and computer graphics. They will begin to experiment with mixing media. Your child will also express their feelings and ideas through their creations, and work on improving art pieces through critique.

Bible

Drawing on various stories from Scripture, the Grade 3 students learn the Story beneath all the stories in the Bible, pointing to Jesus as our Savior. From the Old Testament through the New Testament, as the Story unfolds, children will clearly see that Jesus is at the center of God's great story of salvation and at the center of their story too.

Health

Grade 3 students understand that turning off the TV or video games to be physically active is a good choice, and as important as eating well. Your child will know how to handle an emergency and how to stay safe in places such as the beach, the park and their own neighbourhood. They will explore ways to deal with stress and change, and learn how to build stronger friendships, even with people very different than themselves. Your child will also develop their test-taking skills.

Music

Students in Grade 3 explore the wide world of music! Through folk, square and traditional ethnic dances, and by singing rounds and partner songs, your child will understand that musical beats can be grouped in different ways and that two or more melodies can exist in one song. Your child will move their body to show what music looks like to them, listen to different kinds of musical instruments and recognize that sounds are made in different ways.

Physical Education

Your child will participate in dance, games, gymnastics, individual physical activities and activities outside of school. Through active and safe participation, they will understand what an active lifestyle involves and how their physical and emotional health will benefit from physical activity. Your child will also discover how positive interactions, through fair play, leadership and teamwork, make physical activity more fun and productive.
